-  BEDROOM
-  PRESSURE CARE CUSHIONS
-  MANUAL HANDLING

### SOLUTIONS

-  PRESSURE CARE
-  FALLS MANAGEMENT
-  TRAINING PORTAL

### SERVICES

-  SERVICING AND RENTALS
-  CLEANING AND DECON
-  ISTUMBLE

# Carbon Footprint Journey

**Herida Medical was acquired by Winncare in December 2022**

**Since this time the business is required to align to the Group CRP plan and policies detailed in this document**

**To identify a base calculation, we are currently collecting the relevant data including that required for Scopes 1,2 and in the longer term, 3**

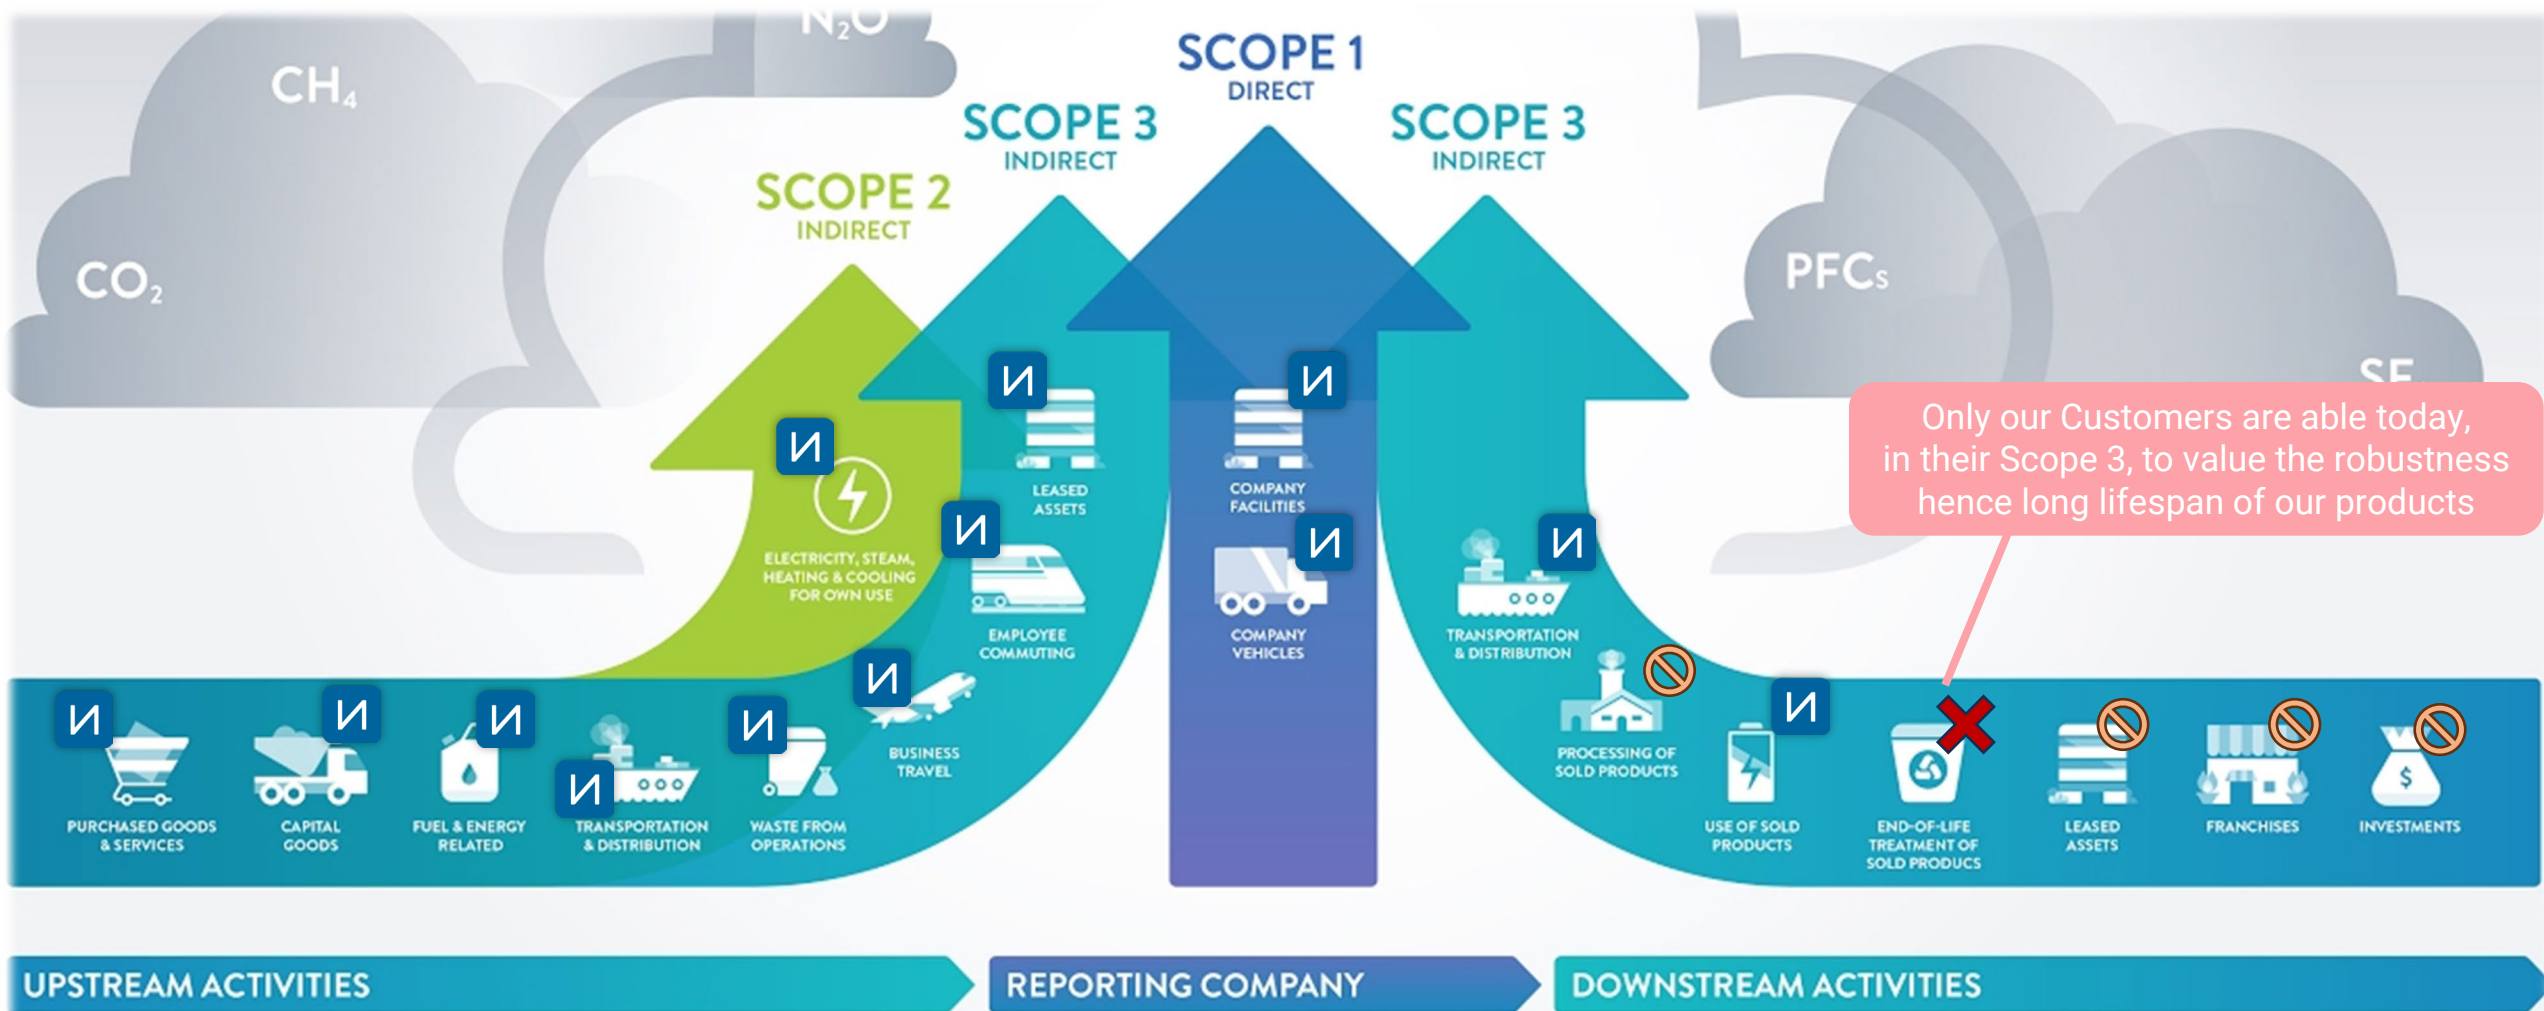

**We are committed to attaining a zero-footprint position that aligns to the NHS Standards**

# Carbon footprint reporting scopes

Very comprehensive scope 1,2,3 Carbon footprint report

-  Not applicable to Winncare
-  Not included in reporting
-  Included in reporting

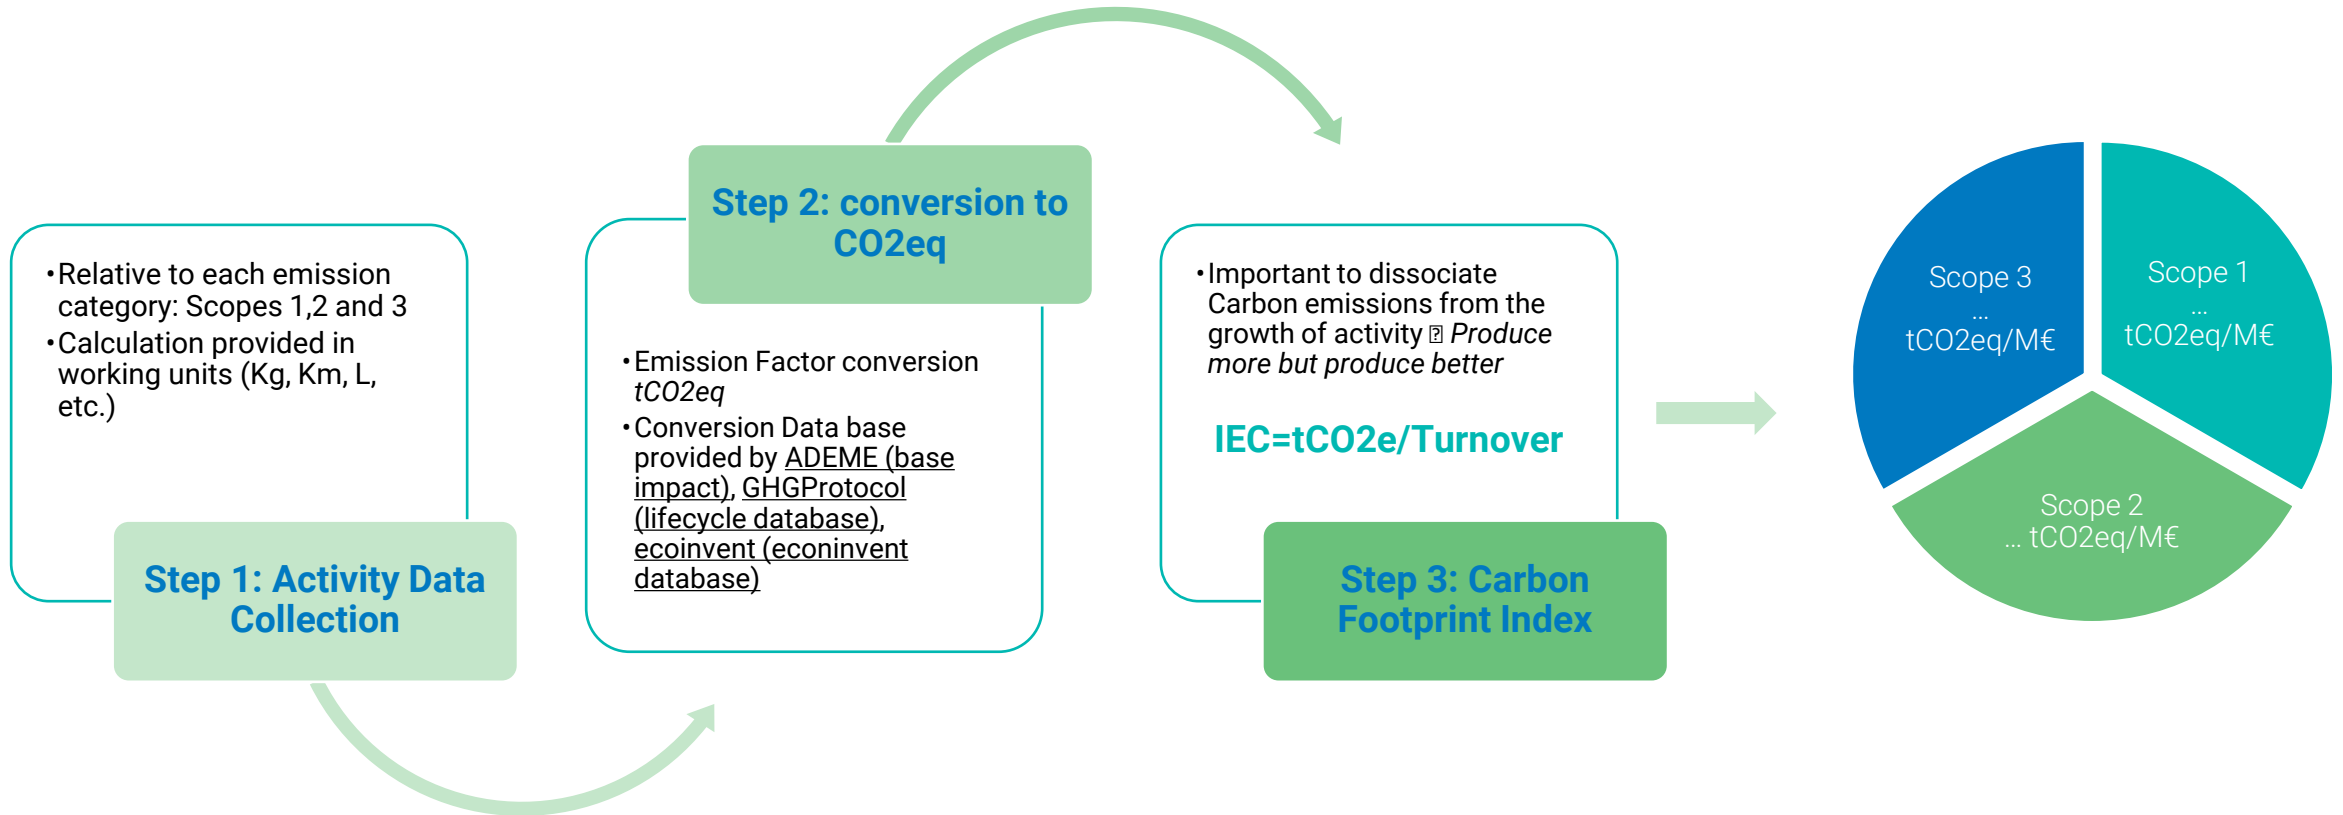

# 2023 business perimeter of report

*In scope of reporting for 2023*

*Out of scope yet data in collection WIP for 2023*

# Emissions and CEI calculation process

Carbon evaluation is an accounting process using:

- Calculation Hypothesis on activity data
- Changing evaluation on Emission Factors

# Results of Winncare's 2 years efforts to reduce our carbon footprint

2021 Baseline

36 802

tCO2e

CEI 477

tCO2e/M€ of Turnover

2023 Actual performance

36 344

tCO2e

CEI 402

tCO2e/M€

↳ - 15,6% on our CEI

Exceeding our 2023 reduction target @ initial company perimeter!
